I. NEW ACTIVITIES

None

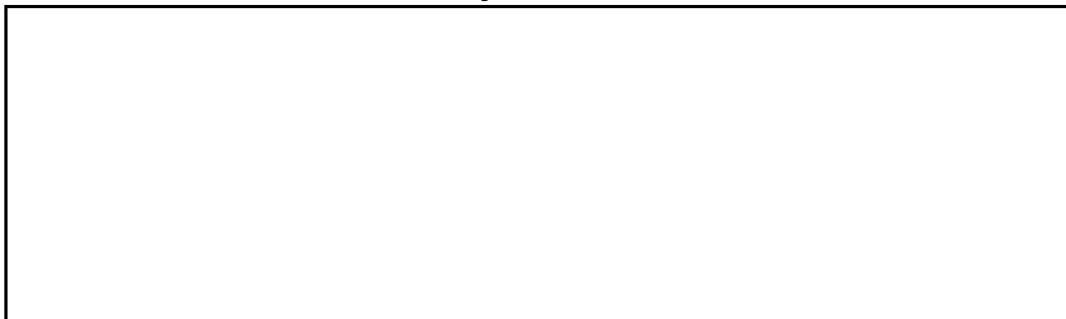

II. OLD ACTIVITIES

From a review of the student comments pertaining to the recently conducted session of the GPO Course, it is quite apparent that this course needs to be three weeks in length. It is also clear that the students need more preparation before entering the course. Only a few of the students in this last class had had the Communism week of the BIG(CS), and only one had picked up reading material before the course opened. These two factors operated to somewhat lower the effectiveness of the course. Evaluation of students has begun in this course and the introduction of comprehensive problems is being considered.
